

REPO4EU On Tour

PARIS

REPO4EU On Tour – Paris

ABOUT REPO4EU

[REPO4EU](#) is the Euro-Global Platform for Mechanism-Based Drug Repurposing –from imprecise drug therapy to AI-powered precision medicine–, an ambitious initiative that will usher in a profound change to medicine and patient benefit.

Mechanism-based drug repurposing will revolutionize the way we approach drugs –it will help us find new uses for already registered drugs, increase precision and radically cut down on costs and time in the drug development process –jumping straight into clinical trials that are small, precise, innovatively designed and compliant with the highest safety and operational excellence standards.

The ultimate goal is to build and grow an industry-level European online platform for validated precision drug repurposing with a global reach. This platform will operate as the go-to data hub for key information, training resources, matchmaking and cooperation in drug repurposing, providing extensive expertise throughout the whole value chain in drug repurposing: from freedom-to-operate analysis to intellectual property protection and business development, health technology assessment, ethics and data governance considerations.

OUR UPCOMING EVENT IN PARIS

19/02/26

Future4Care, Watt-Biopark
Meeting Room L'Amphithéâtre
8 Rue Jean Antoine De Baïf, 75013 Paris

08:30 Registration & Networking

09:00 Welcome

Harald Schmidt – Coordinator REPO4EU, Maastricht University

Yannick Menel – Country Manager, Future4Care

Jonathan Baptista – CEO, DeepLife

REPO4EU & REPOSYSTEM

09:15 Innovation and European strategy

Harald Schmidt – Coordinator REPO4EU, Maastricht University

09:25 Ethics by Design

Ana Sofia Carvalho – University of Porto

09:35 Drugst.One: Repurposing through Expert Annotation and Feedback

Emre Guney – STALICLA DDS

09:45 Innovative Trial Design

Frank Ruwe – 3DPX

09:55 Statistics for Innovative Trials

Johanna Muñoz – BioLizard

10:05 Patenting Strategies

Barend Bouma – NLO

Funded by
the European Union

10:15 Break & Networking

National Perspectives and Opportunities – Building a French REPOSYSTEM Node

10:45 How DeepLife Uses Omics Data to Identify Hidden Drug Repurposing Opportunities

Kevin Carvalho – DeepLife

10:55 Identifying the “Broken” Network: A two-step approach linking network topology and participant-specific transcriptome perturbation, to redefine pre-symptomatics ALS

Dimitrije Milunov – MedInsights

11:05 4P-Pharma: Pioneering Drug Regeneration for High-Growth Opportunities

Coralie Meurot & Roselina Lam – 4P-Pharma

11:15 An Individualised Screening Platform Dedicated to Compassionate Use of Drugs

Terence Beghyn – APTEEUS

11:25 Open discussion, Q&A, Next Steps

12:15 Adjourn & Networking

13:00 [DeepLife’s Infinite 2026: Unlocking new value in existing therapies](#)

Funded by
the European Union
